Portfolio

SUMMARY

Software Engineer building backend and cloud-native systems across Python, AWS, and .NET. Currently working in Python and AWS at Maximus GCC, shipping dependable services and practical AI infrastructure with clear contracts, observable behavior, and reliable delivery.

TECHNICAL SKILLS

Programming Languages: Python, C#, TypeScript, JavaScript, SQL

Cloud and AWS: Lambda, Step Functions, S3, Textract, Bedrock, SQS/SNS, EventBridge, Cognito, RDS, KMS, CloudWatch, X-Ray

Backend and AI: ASP.NET Core, .NET, REST APIs, microservices, SQLAlchemy, Node.js, MCP, LLM integration, structured extraction, RAG

Data and Delivery: PostgreSQL, MongoDB, MySQL/Aurora, SQL Server, Qdrant, Git, AWS SAM, Docker

Testing: XUnit, Postman, GitHub Actions, ServiceNow ATF

Frontend: React, Vue.js, Tailwind CSS

EXPERIENCE

Maximus GCC

May 2022 - Present

Senior Software Engineer

Bengaluru, India

- Built and deployed Python services for a production, multi-tenant serverless Intelligent Document Processing (IDP) platform on AWS using Lambda, Step Functions, S3, Amazon Bedrock, and Textract.
- Engineered asynchronous Textract and Bedrock orchestration with Step Functions task tokens and SNS, eliminating polling; enforced strict JSON schemas for reliable extraction.
- Implemented KMS ECDSA-signed webhooks, human-in-the-loop review with session locking, and observability through X-Ray, CloudWatch alarms, and Splunk.
- Delivered ModelOps Python workflows and TalentLens features across React/Tailwind and .NET microservices; built MPC Correspondence and provider-credentialing integrations, improving template creation efficiency by 30% and cutting delivery time by 20%.

Accenture

Oct 2021 - May 2022

Associate Software Engineer (ASE)

Bengaluru, India

- Trained and worked as a ServiceNow developer and ITOM specialist, developing workflows and frontend validations with Glide AJAX that improved efficiency by 15%.
- Implemented and tested pages and workflows with ServiceNow Automated Test Framework (ATF).

PROJECTS

AgentCargo | TypeScript, PostgreSQL, CLI

In progress

- Building a cross-agent registry and package manager for reusable AI-agent skills with deterministic packaging, integrity verification, versioning, authentication, publishing, and installation.

Bridge | TypeScript, REST, MCP

In progress

- Building a shared decision and specification control plane for AI-agent teams, centered on durable context, human authority, governed decisions, and auditable continuation.

ShortUrl | C#, .NET 8, MongoDB, React

2024

- Shipped a URL-shortening product with custom links, expiry, redirect analytics, and a minimal API-backed interface.

CodeFusion | JavaScript, React

2024

- Built a developer toolbox for data conversion, validation, inspection, and repeatable utility workflows across common formats and identifiers.

EDUCATION

SEA College of Engineering and Technology (VTU)

Aug 2017 - Jun 2021

B.E., Computer Science and Engineering - CGPA: 7.81

Bengaluru, India

CERTIFICATIONS

- Full Stack Web Development - Udemy
- .NET and React Development - Pratian Technologies
- MongoDB Basics
